

DECEMBER 2018— NEWSLETTER

December 2018

President's Message

Happy holiday season LI ASSP members! I hope that everyone has enjoyed our activities for the first half of the year, I know I have. From the wineries to start the year, to this past month's murder mystery holiday party, I think it is safe to say that we have been having some fun while we continue to learn and grow as safety professionals. The executive board has worked hard to prepare another great run of activities to start 2019, and we look forward to seeing you there.

Know that your engagement in developing yourself as a safety professional matters, because our work matters. It is of paramount importance to keep workers safe and healthy in their workplace, and it is our profession that aids in facilitating that outcome. This chapter thrives on the membership it serves, so as you take the time to read this message, we would like to thank you for your engagement in chapter activities and welcome on another great year. Please enjoy this time with your family and friends as you celebrate and recharge.

Sincerely,

Anthony Marletta

November Meeting— Make Safety Training More Engaging

Dr. Sy Islam, a principal consultant with Talent Metrics presented the second technical meeting of the ASSP calendar year on November 14th.

Attendees after the meeting were better equipped to align safety training content with instructional techniques to maximize learner engagement, use needs assessment results to identify preferred learning methods of trainees and use post-session feedback to develop more engaging training.

Talent Metrics, LLC is a management consulting firm focused on helping organizations make research-based, sustainable improvements related to their employees, culture and processes.

December Meeting—Annual Holiday Party/Murder Mystery Dinner

The Long Island ASSP Chapter along with invited guests celebrated the Annual Holiday Party at the Parlor House Grill located in Sayville, NY. In addition to the Annual Holiday Party, the chapter celebrated the 35th anniversary for the Long Island ASSP Chapter. In attendance to celebrate the milestone were the founding members; James Chin, Leo Debobes, and Dr. William Marletta.

The celebration continued with an interactive murder mystery dinner, produced by Knock ‘Em Dead Comedy. The night ended with raffle from donations provided earlier in the evening to The Dreamweaver House, a non-profit organization that offers free consultations, evaluations, care and schooling rights advocacy to children and families affected by learning delays, and other neurological, behavioral, mental and physical disabilities.

Upcoming Meetings

February Meeting

OSHA Enforcement of the Crystalline Silica Standard for Construction

It has been a little over one year since OSHA began enforcing the crystalline silica dust standard for construction. We are beginning to see details about enforcement trends.

During this presentation we'll discuss key part of the OSHA standard and where we are seeing most OSHA citations being issued. We'll review common errors in exposure monitoring, Table 1 controls not being fully and completely utilized, common problems with written exposure control plans, and role of the competent person in implementing the plan.

When: February 13, 2018 9:00am—10:30am

Where: Melville Marriott, 1350 Walt Whitman Road, Melville, NY 11747

Scholarship Opportunity

Long Island ASSP Student Scholarships

The Long Island ASSP is very excited to announce the development of two new scholarships for students in the Safety field at Suffolk Community College and Stony Brook University.

Each student will apply directly through the school and the ASSP will donate \$1000 per school for the student chosen by their university. A link to the application portals for each scholarship will be posted in the Spring when the scholarships come available. Be sure to spread the word if you know any students in either program!

Being a Professional Member

By Joann M. Robertson CPCU ARM CSP

November 14, 2018

I am a Professional Member of ASSP and have been for some time. But when a newer Long Island chapter member inquired about how to become one, I really did not remember how to apply and sent them to the ASSP website for more information and the requirements. Although the website is a helpful resource, I realized that there are probably many other Long Island members who are also in the dark about this category, so I included more information below...

What is Professional Member Status?

This category of membership does not have any benefits or advantages over a regular members, but this label recognizes and acknowledges your more advanced level of education, experience and/or the completion of specific designations.

The list of requirements and details to apply are also listed on the website, see:

<https://www.assp.org/membership/benefits-qualifications/member-types-and-qualifications>

Student Interns Available

Stony Brook University Environmental Health & Safety Interns

It's that time of year where I'm making arrangements with our hosting institutions for our Environmental Health & Safety Interns and I'll be looking to place them in late January/early February. Can I count on you to take our Intern(s) this year?

Stony Brook University's School of Health Technology and Management is looking to place EH&S students in the field. These students are graduating seniors and are available for internships from early February until mid-May. Their areas of interest are in the following disciplines:

- * Industrial Safety Engineering / Occupational Safety
- * Industrial Hygiene / Occupational Health
- * Radiation Safety / Health Physics
- * Fire Protection / Fire Safety
- * Environmental Management (Air/Water/Soil)
- * Waste Management

- * Emergency Management

- * Healthcare Safety/Environment of Care

The students are typically available in 1/2 day blocks, but many are available for full days (this must be coordinated through the individual students). They are required to complete a minimum of 90 hours of internship by graduation in May. There is no cost to the hosting institution. If you are interested in having a student intern with you, please contact Leo DeBobes at leo.debobes@stonybrookmedicine.edu

More details about the BS in Health Sciences (EH&S concentration) can be found at <http://healthtechnology.stonybrookmedicine.edu/programs/hs/curriculum/nonclinical>

As many of you already know, our students intern in hospitals, schools, industry, and regulatory agencies (and elsewhere) throughout the Long Island and NYC areas.
