Speaker Bios

Session I of IV: Monday May 3, 2021 6:00pm-7:30pm

Darryl Gaines, CSM—Sr. Manager Regional Safety with Charter Communications

Darryl Gaines is a seasoned safety professional and speaker with over 28 years of expertise. Darryl shares his first-hand personal experience of crisis management and recovery with passion and credibility to drive culture for positive change. He is a Senior Manager Regional Safety at Charter Communication and a National Safety Council Master Instructor. His public volunteer experience includes a motivational speaker and mentor at Mercy First and Little Flower. He has received outstanding accolades from safety, health and environmental organizations from all sectors and disciplines.

Session II of IV: Monday May 10, 2021 6:00pm-8:15pm

Dr. Gary Roth—Health Scientist, NIOSH

Dr. Gary Roth is a Health Scientist in the Emerging Technologies Branch (ETB) of NIOSH's (National Institute for Occupational Safety and Health) Division of Science Integration (DSI). Dr. Roth's work focuses on developing health and safety guidance for advanced manufacturing, particularly for emerging technologies such as additive manufacturing, synthetic biology, and artificial intelligence. Dr. Roth serves on numerous steering committees and workgroups, including NIOSH's Center for Occupational Robotics Research and Future of Work Group, is an architect of the institute's Emerging Technologies Interest Group, and serves as a coordinator for the Institute's Manufacturing Program. Dr. Roth is also NIOSH's Technical Contact with America Makes, the Advanced Manufacturing Institute specializing in additive manufacturing. Dr. Roth has a doctoral degree in nanoscale science and engineering, and a masters degree in environmental health from the University at Albany.

Thomas Petralia MS, CSP, COHC

Tom Petralia is a seasoned safety and environmental professional with over 25 years of professional experience in environmental, safety and health management. He is very much sought after to deliver environmental and safety management/technical presentations for OSHA, EPA, and DOT compliance. He has worked with major Fortune 500 companies setting a standard of proactive environmental compliance, safety management excellence and pollution prevention. As a national level speaker, Tom has presented professional EH&S seminars for ABS Consulting/ Government Institutes. Tom is an adjunct lecturer teaching graduate level Environmental & Waste Management courses and OSHA Compliance Seminars at Stony Brook University. Tom Petralia is a CSP in comprehensive practice, holds a MS in Environmental Management and a BS in Biological Sciences from Stony Brook University.

Session III of IV: Monday May 17, 2021-6:00pm-8:00pm

Lori Frederic, CMT CSCS, "The Movement Ninja", Owner and Lead Consultant at Balance Biomechanics

Lori Frederic, CMT, CSCS is the Owner and Lead Consultant of Balance Biomechanics and loves to disrupt the conventional approach to sprain & strain prevention. Her knowledge of human movement and biomechanics compliments the world of Safety & Health to engage the workforce and create lasting results. Being a perpetual student of movement gives her the opportunity to share new ideas and bold solutions to save the world from injury and pain.
